MC Analyze - 20181004113200

ⓘ This component release is part of MarvelClient 10.0

CHANGE	Charts have been changed from previously using Highcharts to now using Chart.js
CHANGE / ENHANCEMENT	The Navigator has been improved, including the addition of a new "MarvelClient Upgrade" section. Smart File Downloads are now also part of this new section. The new MarvelClient Upgrade section contains numerous newly added views to monitor Upgrade results, durations and details.
CHANGE / ENHANCEMENT	A new role [MCUpgradeOnly] allows to only display MarvelClient Upgrade views in MC Analyze, which is useful when creating an MC Analyze design based database specifically for Upgrade monitoring
ENHANCEMENT	Buttons are now translated, too
ENHANCEMENT	The view "OS / HW\by Operating System" now shows better categorization for Mac and Windows 32 vs. 64 bit
ENHANCEMENT	The view "OS / HW\by Resources" now uses color coding to help easily distinguish good and bad values
ENHANCEMENT	The view "IBM Notes\Runtime Analysis" now uses color coding to help easily distinguish good and bad values
ENHANCEMENT	The view "IBM Notes\Latency Analysis" now uses icons to help easily distinguish good and bad values: A happy face means happy users, an hourglass means that users start to endure wait times, an exclamation mark means that users endure frustratingly long wait times.
ENHANCEMENT	The view "IBM Notes\Mail Overview" now uses color coding to help easily distinguish good and bad values
ENHANCEMENT	The DXLImport Agent has been improved for better logging in case of errors
