This page was moved to [MC 12.0 - Database Release Notes](#)  
Click in the link above if you are not automatically redirected in 10 seconds.

 This component release is part of [MarvelClient 12.0](#)

NEW	<p>MarvelClient now offers two ways to <a href="#">automate replacing the design of a user's mail database</a> if the mail template version is not up to date:</p> <ol style="list-style-type: none"><li>1. With <b>MarvelClient Upgrade</b> you can initiate replacing the design of the user's mail database immediately after a Notes client is upgraded, using the "success" email generated by the upgrade process.</li><li>2. Based on user data (Notes version and current mail template name) in the <b>MarvelClient Analyze database</b>, you can replace the design of a user's mail database using a <b>scheduled agent</b>.</li></ol> <p>This can be useful for updating a user's mail template to the latest version after the Notes client is upgraded to a new client version. It can also be used to deploy a customized mail template to specific users.</p>
ENHANCEMENT	<p>The "Audit Selected" button now also runs Cleanup and/or Post-Processing agents, if they are active in the Configuration document (previously these agents were only run by the scheduled "Audit" agent, but not by "Audit Selected")</p>
ENHANCEMENT	<p>The Cleanup action now also cleans up Nomad Roaming documents, based on the "Number of days after which a document is to be considered outdated" setting in the Configuration document</p>
ENHANCEMENT	<p>The Cleanup action now also cleans up Nomad Upload documents, based on the "Limit the number of profiles" setting in the Configuration document</p>
ENHANCEMENT	<p>The Addon HW/SW Inventory agent now only creates new Inventory Overflow documents if needed, and deletes outdated inventory documents when it's done</p>
ENHANCEMENT	<p>The Users by State &amp; Upload Key view now has a "(64)" suffix in the MarvelClient version column if the client is using a 64-bit version of MarvelClient</p> <p>The Notes by Notes &amp; MC Release view now has a "(64bit)" suffix in the subcategory groupings of the following categories if the client is using a 64-bit version of MarvelClient:</p> <ul style="list-style-type: none"><li>• MarvelClient</li><li>• Notes Releases</li></ul>
FIX	<p>Added the "Mail - Refresh Inbox Automatically" setting to the Preferences tab in the Upload document</p>
