

Release Notes v4.5.2

We just announced a new minor release of GreenLight, the Monitoring Solution for HCL Domino and others.

The most notable features and improvements are listed below.

Improvement	Domino Discovery Service The discovery service has been improved for large environment and can discover hundreds of servers in a very short period of time
Improvement	Mail Profile Configured SMTP Mail Profiles are better visualized in an action configuration
Bug Fix	Sensor Update Updating sensors has led to error messages in some situations/scenarios
Bug Fix	Mail Profile Mail Profile selection was too long if one has added dozens of mail recipients. In addition a Mail Profile w/o a Profile name did not appear correctly in the new UI
Bug Fix	Traveler User Activity Sensor Few adjustments in the Sensor properties
