

# Release Notes v4.5.2

We just announced a new minor release of GreenLight, the Monitoring Solution for HCL Domino and others.

The most notable features and improvements are listed below.

Improvement	<b>Domino Discovery Service</b> The discovery service has been improved for large environment and can discover hundreds of servers in a very short period of time
Improvement	<b>Mail Profile</b> Configured SMTP Mail Profiles are better visualized in an action configuration
Bug Fix	<b>Sensor Update</b> Updating sensors has led to error messages in some situations/scenarios
Bug Fix	<b>Mail Profile</b> Mail Profile selection was too long if one has added dozens of mail recipients. In addition a Mail Profile w/o a Profile name did not appear correctly in the new UI
Bug Fix	<b>Traveler User Activity Sensor</b> Few adjustments in the Sensor properties
