

# Rollout of panagenda MarvelClient to Multiple End Users

MarvelClient can be deployed to users in the following ways - please select:

Please note that panagenda MarvelClient is fully integrated into the HCL Nomad app (starting with version 1.0.4) - no further installation is required on the client-side.

1. Option A - Manual Install: See [Setting up Your First HCL Notes Client with panagenda MarvelClient](#)
2. [Option B - Mailbased install message](#)
3. [Option C - MarvelClient PostOpen Script](#)
4. [Option D - MarvelClient AutoMailer](#)
5. [Option E - 3rd Party Push Tool](#)
6. [Special Option to enable but not deploy MarvelClient Essentials](#)
