There's a lot of information about Notes and Domino on the HCL website, but sometimes it's hard to find or it's hard to know where to start looking.

Here's a list of useful links that can help.

### [Archived Notes LDD Forums and Wikis](#)

Almost all of the old IBM LDD forums and wikis are also available on the HCL site. This page has a list of links. They're in a read-only state, and they're archived for historical purposes, but there's still a LOT of good information here that can be useful.

### [Fix List Database](#)

The old Fix List database still exists too, and it's still being updated with SPRs and fixes for the latest versions of Notes/Domino.
