MC Upgrade - 14.0.4

ⓘ This component release is part of MarvelClient 14.0

FIX	Fixed an issue where the desktop preview did not work in all cases
FIX	Fixed an issue introduced in 14.0.1 where when running as SYSTEM, InstallFinished* messages were no longer displayed in the console session as the progressbar was closed prematurely
CHANGE	MCUpgrade.exe can now also be run without a .mcu file. Previously, this would be prevented by the LogonDomains filter, which was compared to an empty domain in that case.
