The MarvelClient Configuration Database

> **Tip: Press [F1] at any time in the MarvelClient Configuration and Analyze databases for context-sensitive help.**
> **When creating or editing documents in the MarvelClient configuration database, pressing [F9] validates your input.**

The MarvelClient Configuration database is laid out as follows:

1. A link to the MarvelClient Analyze database
2. The name of the user who opened the Configuration database
3. A language selector
4. The Action bar
5. The Navigator to switch between views and configuration options
6. The currently opened view or configuration form
7. Indicator whether the database was opened on local (red) or on (which) server (green)
8. A link to display version information about the Configuration database
