# Release Notes v3.5.1

This is a bug fix and Improvement version for the 3.5.x Stream (latest GreenLight Platform based on Docker!)

## Improvement

- **Domino Mailflow Analysis Sensor**

  Added the capability to count the amount of cycles until the mail has/hasn't been delivered to the recipient mailbox. This cycle count can be used for alerting/action purpose

  | Key | |
  |---|---|
  | greenligh trafficanalysis.mailflow.cyclecount | 2 |

- **General**
- Replaced httpclient in all relevant Sensors to OKHttpClient
- Adjusted GreenLight Update process to support debz filetypes
- Adjusted WebSphere truststore path to **/opt/panagenda/binaries/security/cacerts**
- Minor PostgreSQL adjustments

## Bug Fix

- **Domino DB Access Sensor**

  Fixed an issue where save/close button was hidden if one has chosen the type: "All mail.boxes"

- **Platform**

  Fixed an Issue with access permission on folder  /opt/panagenda/dbbkp
