

Exploring the MarvelClient Analyze database

Numerous views and charts help you oversee and see through your Notes client landscape from within the MarvelClient Analyze database:

- [General](#)
- [MarvelClient for Nomad](#)

General

View	Description
Users\ by State and UpI (oad) Key	Shows all client data categorized by Audited state (Up to date <i>or</i> Updated since last audit)
Users\ by Notes- Name	Shows all client data sorted by abbreviated Notes username (e.g., florian vogler/panagenda) NOTE: by default a user can have more than one document, as data is uploaded for each client release on each computer. In other words, if a user uses multiple machines and/or multiple client releases, there will be a document for each machine and each release. Also note that you can limit multiple documents per users via [Administration\Cleanup & more] in combination with the (Cleanup) agent.
Users\ by Notes- Name\ Hierarc hical	Categorized right to left by certifier, e.g., panagenda\Development
Users\ by Date last upload ed	Categorized by YYYYMM of last update
Users\ by Startup \Shutd own	Categorized by Client last started on ...\\YYYYMM / Client last shutdown on ...\\YYYYMM
Users\ Cloud Onboa rding Status	Categorized by Cloud Onboarding status (if applicable) <div><div>Status\ServerUser</div><div><div><div>+ In Cloud</div><div>+ Not in Cloud scope (yet)</div><div>+ No detection action</div><div>+ Unsupported</div><div>+ Undefined</div></div></div></div>

Users\ Cloud Onboa rding Status\ by OnPre m Server	Categorized by On Premises Mail server and Onboarding status (if applicable)
Users\ by Mail Server	Categorized by user's mail server according to current location from when uploading data into the Analyze database
Users\ waiting for deletion	Displays all documents that have only been soft deleted and are waiting for final deletion
My Favori tes	Displays any documents dragged and dropped into this folder for each user of the Analyze database
Self- create d Folders	Displays any custom views or folders (if applicable)
OS / HW\ by Operat ing System	<p>Categorized by operating system (Mac 64 Bit, Windows 32 Bit, Windows 64 Bit) with subcategory of detailed version, e.g.:</p> <div> <div>Windows 32 Bit</div> <div>Windows 7 Professional, 32-bit Service Pack 1 (build 7601)</div> <div>Windows 64 Bit</div> <div>Windows 10 Home, 64-bit (build 17134)</div> <div>Windows 10 Professional, 64-bit (build 14393)</div> <div>Windows 10 Professional, 64-bit (build 15063)</div> <div>Windows 10 Professional, 64-bit (build 16299)</div> </div>
OS / HW\ by Client HW Type	<p>Categorized by type of hardware\chassis type</p> <div> <div>Desktop</div> <div>Desktop (Citrix)</div> <div>Desktop (Citrix) [VMware]</div> <div>Desktop [VMware]</div> <div>Laptop</div> </div>
OS / HW\ by Resour ces	Flat view showing % and MB of free disk space for both Notes data and program directory (in case they are on different disks), memory MB total and free.
OS / HW\ by Compu tername	Categorized by operating system computer name; Citrix clients are displayed as - Citrix -Hostname
OS / HW\ by OS Userna me	Categorized by operating system user name
OS / HW\ by IP- Address	Categorized by IPv4\Segment\ and IPv6\Segment\

OS / HW by Screen Resolution	Categorized by ResX*ResY (total screen estate in case of multiple monitors)
OS / HW by OS Locale	Categorized by current operating system locale settings, e.g. en-US or de-DE
Notes by Notes & MC Rel.	<p>Categorized by various keys to identify Notes deployment and release details, inconsistencies, MarvelClient details and much more - for example</p> <ul style="list-style-type: none"> [-] IBM Client Application Access <ul style="list-style-type: none"> [-] Not Installed or Running [-] Version N/A [-] MarvelClient <ul style="list-style-type: none"> [-] Duplicate binaries [-] Essentials Revision [-] Full Revision [-] Revision [-] MarvelClient Eclipse Plugin [-] Notes - Basic vs. Standard vs. IBM Client Application Access <ul style="list-style-type: none"> [-] Basic only [-] IBM Client Application Access installed and running [-] Standard installed and running IBM Client Application Access installed [-] Standard installed and running Standard client [-] Standard installed but running Basic client [-] unknown install type (update DLL) [-] WARNING: ini:InstallMode unavailable (validated as Basic; running Basic) [-] WARNING: ini:InstallMode unavailable (validated as Standard; running Basic) [-] WARNING: Install identified as Basic only but running Standard [-] < Notes 8 [-] Notes - Components <ul style="list-style-type: none"> [-] Notes Client [-] Notes Client + Admin Client + Designer Client [-] WARNING: Inconsistent setup (ini:InstallType): Notes Client [-] WARNING: Inconsistent setup (ini:InstallType): Notes Client + Admin Client [-] WARNING: Inconsistent setup (ini:InstallType): Notes Client + Admin Client + Designer Client [-] WARNING: Inconsistent setup (ini:InstallType): Notes Client + Designer Client [-] Notes - Releases <ul style="list-style-type: none"> [-] 10 [-] 6 [-] 7 [-] 8 [-] 9 [-] Notes - Single- vs. Multiuser <ul style="list-style-type: none"> [-] Multiuser with SharedDataDirectory [-] Singleuser [-] Notes BrowserPlugin <ul style="list-style-type: none"> [-] Installed [-] Not Installed [-] < Notes 9
Notes by OS and Notes Rel.	Categorized by Operating System Release/Notes Client Release
Notes by Directory	Categorized by Fullpath to each of the following directories/folders: Notes Data, Notes Program, Notes Shared Data and Notes.ini
