Release Notes v1.0.0

panagenda is proud to release this initial version of iDNA Applications. Whether you're modernizing or migrating Notes/Domino, iDNA gives you the knowledge to deliver the most difficult projects efficiently, on time and on budget.

iDNA makes life easier for everyone involved in the planning and implementation of Notes/Domino modernization or migration projects. You'll have a detailed analysis of the complete environment with a granularity that no competitor can match. We enable you to scope your projects more accurately, simplify planning and make implementation faster and more efficient. We deliver the facts, so you can deliver success.
