MC Config - 20190529140900

> ⓘ This component release is part of MarvelClient 10.1

ENHANCEMENT / NEW	Added a new "CleanUp" functionality to the Rollback view. It can be scheduled to clean up all docs older than a specified number of days.
ENHANCEMENT / NEW	Added more information to the "Advanced - Logs" view: # of errors, # warnings, and run-time
FIX / CHANGE	For languages other than English, the Config database will now fall back to English if there is a problem with a tag.
FIX	Fixed an issue in OnlineUpdate where using "Install Prepared Update" would not import additional languages.
FIX	Fixed an issue for MarvelClient Essentials customers, where actions were not properly categorized in the view "by RT, Prio and Title"
FIX	Fixed a display issue on the Config DB welcome page.
FIX	Fixed in issue in the MarvelClient Upgrade Configuration, where providing a URL as the source for the installer download would create defective actions.
FIX	Fixed in issue in the MarvelClient Upgrade Configuration, where custom progress bar colors were ignored.
CHANGE	MarvelClient Upgrade Configuration: Added some explanatory text to the "Data Migration" tab.
ENHANCEMENT / NEW	MarvelClient Upgrade Configuration: Added a new Client Configuration tab to display related information.
ENHANCEMENT	MarvelClient Upgrade Configuration: "Index installer(s)" now support UTF-8 for filepaths and filenames
CHANGE	MarvelClient Upgrade Configuration: Changed minimum free disk space validation to 2 GB
