MC Config - 20190617084800

ⓘ This component release is part of MarvelClient 10.1

ENHANCE MENT / NEW	MCUpgrade: added Swedish, Norwegian, French and Portuguese/Brazilian to MarvelClient Upgrade progress visualization languages
FIX / CHANGE	Fixed in issue in MCUpgrade config, where choosing 00FF00 in the color picker on the user experience tab would lead to invisible text on progress visualization. It now automatically replaces 00FF00 with 00FE00, as 00FF00 is reserved for transparency.
