MC Analyze - 20190925135100

ⓘ   This component release is part of MarvelClient 11.0

NEW	**Added new views covering HCL Nomad and improved upload document accordingly. The views include information about Nomad-related notes.ini settings as well as the Recent Apps page for all users.**
CHANGE / FIX	The MarvelClient Analyze database will no longer prompt for enhanced navigation using Java Applets etc. when using a Standard/WCT client.
CHANGE	Changed the table display widths for documents in the view "Addons \ Replication and Sync" to prevent truncation.
FIX	Fixed an issue in the view "Addons \ Replication and Sync" where all entries under "1. Send outgoing mail" would display "used location" even if the location was not the one being used for that user.
FIX	Fixed an issue where documents in the view "Addons \ Replication and Sync" would not open and instead display an error message.
FIX	Fixed an issue where several forms using XPages would not use the proper translations to display labels.
FIX	Fixed an issue in the upload document, where attachments with rev_* filenames could not be opened from the "Files" tab.
