

Analyzing ACLs: Identifying Explicit Person Entries in ACLs

Go to to "Database ACL Analysis – Direct users only" view:

Database ACL Analysis

by ACL Entries ...

Explicit only, categ.

Users only

Direct users only

In this view you will find ACL entries that

- either correspond to a person document
- or if an appropriate ID file were used or created, could be used to gain access to the respective databases listed in each category

#	ACL Entry	Title
40	- Default -	
23	- Default has Public Access -	
14	- No direct users -	
26	Demo Admin/DemoData	
1	Larry Left/DemoData
