MC Binary - 11.0.18

ⓘ This component release is part of MarvelClient 11.0

ENHANCEMENT / NEW	Added functionality to detect the new HCAA client (HCL version of ICAA). In older versions of MC, the following config variables will be incorrect if used with HCAA: <notes:mode_running>, <notes: icaa_version>, and <notes:is_icaa>
FIX	Fixed an issue where Server Access Restrictor would not work if <ini:MC_ServerAccessRestrictorSetClientVersion> did not include a fix pack.
FIX	Fixed an issue where the the Sametime Cloud Migration action would not work if only the Cloud Migration module was licensed without any of the Eclipse modules.
