

MC Config - 20200902140000

 This component release is part of [MarvelClient 11.0](#)

CHANGE / NEW	<p>The INI Management action (*.ini & Variables) includes the following new options: JSON, XML, and .ini file without section.</p>  <p>You can now read and write entries in those file types, in the same way you could read and write from Notes.ini and other .ini files before.</p>				
CHANGE / NEW	<p>Managed Mail Replicas (MMR) are now supported on Nomad.</p>				
CHANGE / NEW	<p>You can now use field values retrieved by the Profile Document action as references in other actions, using a syntax of <alias:field_fieldname>.</p> <p>An example is shown at the bottom of the action form. You will need to give the action an Alias name on the Admin tab:</p>  <table><thead><tr><th>Reference</th><th>References can be used as follows</th></tr></thead><tbody><tr><td><alias:field_fieldname></td><td><MyProfileAction.field_TestValue></td></tr></tbody></table>	Reference	References can be used as follows	<alias:field_fieldname>	<MyProfileAction.field_TestValue>
Reference	References can be used as follows				
<alias:field_fieldname>	<MyProfileAction.field_TestValue>				
CHANGE / NEW	<p>The "Notes 11 Theme" option was added to the Eclipse Preferences action.</p>				
CHANGE	<p>The "Upload Audit/Monitoring Data into Analyze Database" example action now uses <ini:MC_UploadDB> for the filename.</p>				
FIX	<p>The (Re)Compute Packets button on the Smart File Downloader action requires a chunk size, and if the chunk size changes, the packets must be recomputed before saving the document.</p>				
FIX	<p>Fixed Online Update "Error in ApplyUpdate Line 338" when Japanese is selected as the only additional language.</p>				
FIX	<p>The Password and Submit tag fields in the Eclipse Sametime Migration action form are now optional if SAML is chosen as the authentication type.</p>				
FIX	<p>MCUpgrade actions will no longer appear as "(not categorized)" after clicking "Prepare or Publish Upgrade".</p>				
FIX	<p>Fixed a problem where directory paths with Unicode characters did not work properly when using the "Index Installer(s)" buttons on the MCUpgrade Config form.</p>				
ENHANCEMENT	<p>View column icons have been updated and have better hover text.</p>
