 This component release is part of [MarvelClient 11.0](#)

F IX	Fix for roaming/rollback action if 'restoreregex' option was used and the regex matches multiple files. Prior to this fix, it was possible that files with multiple regex matches were restored using the wrong file name.
F IX	Better detection of the Eclipse home and data directory for the new Mac 11.0.1FP1 Notarized client. The internal directory structure of the notarized client changed, and this had the side effect of causing MarvelClient Eclipse plugin updates to be installed incorrectly in specific situations (for the new Mac notarized client only).
