MC Config - 20201216103500

ⓘ   This component release is part of MarvelClient 11.0

ENHANCEMENT	Added replication priority options to the Desktop Icon and the Application/Mailfile actions.
CHANGE	Description text on Abort Notes Launch action form now displays the selected action runtype.
CHANGE	Temporarily remove the delay limited replication setting in the Roaming action. This was added in a previous non-public template for testing, and it will be re-added in a later template after testing is complete.
FIX	Section names can now be specified when using the "Custom .ini file" option of the *.ini and Variables action.
