About panagenda MarvelClient

panagenda MarvelClient is the world's fastest and leading client management solution for Notes and Nomad, supporting

- HCL and IBM Notes on Microsoft Windows
- HCL and IBM Notes on Apple macOS 64 bit
- HCL and IBM Notes on Virtual Desktop Infrastructure (VDI), like Citrix and Windows Terminal Server
- HCL Nomad on iOS mobile devices
- HCL Nomad on Android and Chromebook devices
- HCL Nomad Web
  and
- HCL and IBM Client Application Access (IBM and HCL CAA)

On HCL Domino Servers, MarvelClient only consists of two databases, which are operating system independent.

As of today, customers in over 70 countries run more than 12 million licenses of panagenda MarvelClient.

Since every customer is different, MarvelClient can be licensed with different feature sets as outlined below.

Upgrading MarvelClient - including MarvelClient Essentials - is easily done from within the MarvelClient Config database upon successful purchase.

For further details, please visit our website.

Customers can choose from various Modules and Editions of panagenda MarvelClient:

MarvelClient Module / Edition	Free or Optional Upgrade	Major benefits
MarvelClient Essentials	**Free** Included in IBM/HCL Notes and Domino since 10.0.1 Separate Download available for earlier releases	See MarvelClient Essentials
