

# The Upgrade Config Wizard

The MarvelClient Upgrade Configuration Wizard makes it easy to create fast and reliable upgrade configurations within 20 minutes or even less.

You can find it in the MarvelClient Configuration database under **MarvelClient Upgrade\Configuration(s)**.

## IMPORTANT

The MarvelClient Upgrade Configuration Wizard requires a Windows Notes client.

## Good to know

You can safely **copy and paste** existing upgrade configuration documents, allowing you to create your next upgrade within just a few minutes.

The following documents describe all options in details:

- [The Header Section](#)
- [The Language\(s\) tab](#)
- [The Distribution tab](#)
  - [MarvelClient Upgrade Initiator](#)
