

Getting started with MarvelClient Upgrade 25 FREE

MarvelClient Upgrade 25 is our FREE offer to experience all premium features of MarvelClient Upgrade on up to 25 computers.

If you don't have a license key yet, you can get one instantly [here](#), and then continue as follows:

If you have a license key, please [contact support](#) to make sure MarvelClient Upgrade 25 has been enabled for your license, and then continue as follows:

Prerequisites

1. Make sure that you have [installed the MarvelClient databases](#)
2. Make sure that you have [installed/enabled MarvelClient](#) on at least your MarvelClient Upgrade test client
3. Make sure that all end users clients can access [licensing.panagenda.com](#) on port 443

IMPORTANT

If you are using MarvelClient Essentials, make sure that you do NOT have the role [HideEssentials] in the ACL of the MarvelClient Config database!

1. Open the MarvelClient (MC) Config database and navigate to Administration – Online Update. If you don't have an MC Config database yet, see above Prerequisites. The MC Config database is usually in the panagenda folder on one of your HCL Domino servers.
2. Choose the following options on the Online Update form:
 - a. If you are a panagenda MarvelClient customer, choose "Enter a license key"
 - b. If you are not a panagenda MarvelClient customer, choose "Update MarvelClient Essentials" and check the option "Update MCUUpgrade Free"
3. Enter your License Key. If you are not a panagenda MarvelClient customer, this will be the license key we sent to you by email
4. Accept the license agreement and click on Check for and Apply Updates

After Online Update completed successfully,

- Close and re-open the MarvelClient Config database (Please make sure to close any and all open MC Config tabs, including in the Admin client, if applicable)
- Continue with [Creating your first Upgrade in 20 minutes](#)
