This component release is part of [MarvelClient 12.0](#)

ENHANCEMENT	Added logging for the number of files and folders that are scanned when looking for backup/roaming sets, to more easily diagnose problems when scanning large directories.
FIX	Fixed a problem where running a desktop compact action when the new Notes 12 workspace was active could cause the client to shutdown after login.
FIX	Fixed a problem where getting information from the ID file could fail if the file was already open by another process.
