 This component release is part of [MarvelClient 12.0](#)

Config DB - General

ENHANCEMENT	<p>New languages available! Our templates now have translations for these additional languages:</p> <ul style="list-style-type: none">• Spanish• French• Italian• Dutch• Russian• Japanese <p>After you run OnlineUpdate to upgrade to the latest template, you can close and reopen the database and run OnlineUpdate again to download one, some, or all of the new languages.</p>
ENHANCEMENT	Location and Connection actions are now disabled for Nomad platforms by default. This also applies to existing actions. Administrators can manually override this, but be aware that some Location and Connection settings can be harmful to your Nomad clients.
CHANGE	Location action now has a WSS port option for Nomad/SafeLinux support, and the legacy TCP port has been removed (the TCPIP port is still available, of course).

Config DB - MC Upgrade UI

FIX	Fixed a "filepath is invalid" error if an Upgrade config with whitelisting is published.
