This component release is part of [MarvelClient 12.0](#)

ENHANCEMENT	Location or Connection actions will not run on the latest Nomad clients by default, unless the action documents are reopened and the Nomad platforms are explicitly selected for those actions. This requires Config template version 20210806 or higher.
FIX	Fixed a problem where using the "unzip all files" option when saving file attachments wouldn't save files that weren't zipped. This problem was introduced in 12.0.10.
