

TrueDEM Manager

The TrueDEM Manager is a helper app created and signed by panagenda. The following content is an addition to the PDF Document "TrueDEM Manager Overview" which we share with customers.

TrueDEM Manager is installed as an Application and can be found on the Apps & Features Settings Page of your Operating System.

Note: The application itself can not be looked up via the Windows Icon (it is just hidden as a selectable application)

Logs for the TrueDEM Manager can be found here: `%localappdata%\panagenda\TrueDEM Manager\logs`
