

# Release Notes v3.2.4

This is a bug fix version and is on the same code-base level like GreenLight v3.5.1 (3.2.4 == 3.5.1)

## Improvement

- **Domino Mailflow Analysis Sensor**

Added the capability to count the amount of cycles until the mail has/hasn't been delivered to the recipient mailbox. This cycle count can be used for alerting/action purpose

Key	
 greenlight.trafficanalysis.mailflow.cyclecount	2

## Bug Fix

- **Domino DB Access Sensor**

Fixed an issue where save/close button was hidden if one has chosen the type: "All mailboxes"
