Metabase Default Users

panagenda GreenLight is delivered with two default Metabase users:

- **Admin:** *admin@metabase.local* (password: *config*)
  User rights:
    - Create, edit, delete Metabase contents (Questions and Dashboards)
    - Change Metabase settings

> ⊙ **It is highly recommended NOT to change Metabase contents within the "panagenda" Collection. All changes will be lost after updating /upgrading the GreenLight appliance.**
> **If you want to use panagenda default contents (from the "panagenda" Collection) as a starting point for your own Questions or Dashboards, please duplicate them and save them to the "*Custom content*" Collection in Metabase.**
